**【Warm Tips when you are in Tibet】**

1. Have a good rest after your arrival. You should not do anything strenuous on the first day. Brisk walking and running are not advised. We suggest that you do not smoke nor drink alcohol either. Do not eat too much for dinner.
2. It quite often happens that people feel short of breath. If it is not serious, please do not rely on oxygen equipment all the time so that you can acclimate yourself to the high altitude as early as possible. You may prepare some health care medicine such as: American ginseng tablet, rhodiola rosea or plateau peaceful capsule.
3. Do not take showers or bathes too frequently especially on your first night in Tibet. This will help you avoid catching severe colds. It is a good way for you to keep a usual mind in Tibet. Please follow tour guide's advice.
4. We need to apply the Tibet permit for you at least 15 days earlier before you arrive here. So make sure provide the following materials to us timely: your nationality, career, gender, day of birth as well as the scanning copy of your passport and visa.

**Tour Arrangements will be subject to local real conditions!**

**Wish You a Happy Journey!**
